Above is shown one of the many clones of hollies and holly hybrids that we are testing and growing for the sales gardens, landscape architect and nurseryman. We believe also that many of these varieties will prove their value as foliage for floral arrangements for the home owner as well as for the florist.

Again this season we have a bumper crop of plant material both in the field and in containers. Only a trial order or a visit to our nursery will convince you that quality is our foremost effort.

CAUTION—We accept all orders subject to crop conditions and on conditions that some shall be void should injury befall our stock from hail, fire, frost, error in count or other causes beyond our control. All orders are accepted without liability for non-performance if labor shortages or delay in transportation should prevent us from making delivery.

GUARANTEE OF GENUINENESS—If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readiness on proper proof, to replace such nursery stock that may prove untrue to description or name. We shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

CLAIMS for any cause must be made promptly on receipt of stock. We will not entertain claims after goods have been once accepted, or when report is not made within Ten Days after arrival of stock.
